START ENJOYING YOUR AUTOMATION JOURNEY

Struggle no more! Welcome to the new age of digital transformation

As you start on this journey you will enviably encounter challenges and pains as your team matures through these levels. From engaging with clients, business and industry leaders, consultants, and analysts in India, US, and UK we've observed the common mistakes companies and RPA teams repeatedly make. We help you to avoid these pitfalls and overcome common challenges

There are 6 levels of automation team maturity that we have identified:

- 0 Level 0: Explore stage**
Completely new to the technology. Deciding which provider to choose
- 1 Level 1: Experiment stage**
Learning the technology. DIY builds to understand the platform and capabilities
- 2 Level 2: Pilot stage**
Proving the value. Launching simple bots to demonstrate financial and non-financial benefits
- 3 Level 3: Team formation stage**
Deliver value. A multi-skilled and experienced team delivering significant benefits
- 4 Level 4: RPA factory**
Consistent value. A repeatable approach to implement with consistent quality and speed, confidently bring on more IA capabilities e.g. chatbots or ICR/OCR
- 5 Level 5: CoE as a Service**
Scalable value. Setting up hubs in a federated structure to reach more teams

What business leaders say about our approach?

"[The AEIO YOU] approach to implementing RPA is thorough, well-researched and well executed. Highly recommended to anyone involved in the automation market."

Guy Kirkwood, UiPath chief evangelist (The world's largest RPA vendor)

We needed someone to come in and support our RPA programme. What was missing for us was having someone who had a good technical understanding of RPA who could help us identify specific processes which would benefit by using RPA but could also challenge the developers of the [AEIO YOU creator] gave us that missing piece to our RPA jigsaw [their] enthusiasm for using automation and technology in the business world is a breath of fresh air.
