

All-Access Libraries

With employee engagement on the top of everyone's mind, there's no better way to keep employees engaged, stay compliant, and provide added benefits than to give them ample opportunities for professional growth through training initiatives.

How do you implement an employee-training program at your organization?

We offer two extensive course libraries –Human Resources and Workplace Safety. There are more than 600 employee training courses, with engaging and interactive presentations, and valuable training tools. We're also mobile friendly, so your employees can train anywhere, anytime.

What You Get With This Turn-Key Platform:

- An interactive, intuitive user interface that employees can access from anywhere
- Comprehensive tracking and reporting so you can view when your employees access and complete training
- Automated certificates of completion
- Badges and gamification to keep users engaged

Why Offer Employee Training?

- To reduce HR liabilities at your organization
- To create a safer workplace thus decreasing employee injuries, workers compensation costs and increasing productivity
- To stay in compliance with ever-changing laws and regulations

Human Resources/Workplace Harassment

With almost 250 courses and 90 hours of training, our human resource and workplace harassment courses include titles to help train on the Family and Medical Leave Act, HIPAA, national and state-specific workplace harassment training, and so much more!

Environmental, Health, and Safety

With over 300 courses and 127 hours of training, our workplace safety online training courses include titles to help train on OSHA safety, environmental compliance, transportation and construction safety, and so much more!

Course Features Guide

Interactive

Courses are interactive, with various scenarios and knowledge checks throughout, to keep the learner engaged. The courses are also professionally voiced throughout.

Compliant

As regulations change, you can be sure that we will update a course as quickly as possible to ensure that your training is always up to date and compliant.

Assessments

Questions come in a variety of formats and are strategically placed throughout the course to ensure learner understanding. These include both shorter knowledge checks throughout the course and a longer final quiz, which is scored and sent to the administrator.

Certificates of Completion

Upon successfully completing a course and taking the final quiz with a passing score, learners will automatically receive a certificate of completion.

Resources

Learners can download or print handouts at their convenience. Some courses also include other ancillary resources, like worksheets, reference materials, or glossary terms.

Transcripts

A copy of the narration is included in each course for learners who prefer to read along.

Ask the Expert

As regulations require, some courses include an ask the expert feature. For the duration of the course, learners can send questions directly to our in-house experts. Our experts will respond within 2–3 business days (or faster)!

All-Access: Human Resources/Workplace Harassment

Are your hiring practices as good as they can be? How are you shielding your organization from harassment claims? Are you prepared to discipline your employees for inappropriate behavior? Are you confident in your overtime calculations? It's crucial for you to have the answers to these questions and many more so you can keep your employees productive and your organization in compliance. And that's where TrainingToday's All-Access: Human Resources libraries can help. With almost 250 courses, our human resource and workplace harassment courses include titles to help train on the Family and Medical Leave Act (FMLA), HIPAA, national and state-specific workplace harassment training, and so much more!

Course Listing

- A Manager's Role in Wellness
- Active Shooter On-Site: What Every Employee Should Do (Multimedia)

All-Access: Environmental, Health, and Safety

Do you fully understand what your responsibilities are when it comes to compliance with national EPA, OSHA, and other federal and state safety rules and regulations? For many organizations, getting the information and tools you need to stay on track and in compliance is time-consuming and expensive. TrainingToday's Environment, Health, and Safety libraries include everything you need to increase awareness of safety and environmental best practices, achieve compliance with national OSHA and state workplace rules and regulations, and create the safest-possible environment for employees. With over 300 courses, our workplace safety online training courses include titles to help train on OSHA safety, environmental compliance, transportation and construction safety, and so much more!
